

SKILLS

- Python, Django, HTML, CSS, JavaScript, Java, Spring, C#, ASP.Net, SQL, Git, Agile, Spanish

TECHNICAL EXPERIENCE

Django Developer | BCCA - Ascent: December 2019

- Created a small full-stack application to track attendance for the classroom.
- Collaborated with a partner in morning stand-ups to gauge progress on the process.
- Full production application: bcca-ascent.herokuapp.com
- Code sample in relevant directory: github.com/ASoledadU/ascent/tree/master/attendance

HTML/CSS Developer | HTML/CSS Star Wars Introduction: December 2019

- Translated the Star Wars introduction into HTML and CSS.
- Shared my experience of the language through a blog post.
- Full post: dev.to/asoledadu/star-wars-intro-explanation-yes-again-4hk5

C# .Net Developer | Python to .Net Translation: January 2020

- Recreated an application for users to make reservations at a fictional Dog Spa.
- Curated mentor support to problem solve challenges with object-oriented programming.
- Independently drove my acquisition of the new skills by referencing books and tutorials

WORK EXPERIENCE

Manager | Instructor of Davidson Elementary Coding Program: September 2019 - Present

- Create a weekly curriculum for 5th-grade students to encourage programming interest.
- Collaborate with co-instructors to create lesson plans and measure student growth.

I.T. Tech Support Specialist | Future Electronics: October 2018 - June 2019

- Maintained computer and printer software and hardware.
- Overlooked main software that organized all the packages in and out of the building
- Kept track of hardware inventory and created support tickets if faulty.
- Organized and updated all computation documentation digitally to teammates.

EDUCATION

Base Camp Coding Academy: Expected Graduation May 2020

- An 11-month program that turns high school seniors into full-stack devs with 40 hour work weeks.

Career Tech Center West Campus: Graduation May 2019

- A 2-year vocational school that focused on Information Technology education.

CERTIFICATIONS

Microsoft Networking Fundamentals: April 2019

- Demonstrates an understanding of network infrastructures and hardware through Microsoft.

PC Pro Certified: May 2018

- Qualified to deal with the repair and maintenance of computer hardware through CompTIA.
